SUPERVISE WORK IN CONFINED SPACE OPERATION

Course Overview

The Workplace Safety and Health Sect. 12 (3) stipulates that “It shall be the duty of every employer to ensure that those person at any work have received adequate instruction, information, training and supervision as is necessary unless he has undergone a safety and health training course approved by the commissioner for Workplace Safety and Health”.

Participants are expected to be self-directed, with a mind to acquire skills and knowledge. They should be able to apply the acquired skill & knowledge to perform the duties of an entrant and attendant when working in a confined space, use gas detection instruments and participate in an emergency situation.

Who should attend this course?

The job roles / occupations that this unit would be relevant to may include but not limited to the following parties related to / in the industry performing the duties:

- Supervisor
- Rescue personnel
- Manager
- Company Safety Personnel
- Engineers
- Technician / Operators

Course Objectives

CE1 – Identify duties and responsibilities of a Confined space work under the WSH Legislations and Codes of Practice

CE2 – Identify, prevent and control confined space hazards

CE3 – Carry out and comply with the requirements of the Confined Space Entry Permit System using a systematic approach

CE4 – Apply Gas Detection Instruments and other control measures when working in confined space

CE5 – Implement the safe use of personal protective equipment and respiratory protective equipment when in a confined space

CE6 – Assist in implementing an Emergency Response Plan
